

CONTENTS

PREFACE

1. INTRODUCTION TO THE FIELD OF TRAUMA MANAGEMENT

How to use this manual

The focus of this manual

Practice within your ethical and moral limits

Don't become a "true believer"

Build on resilience and the natural healing process

Elements of Proactive Trauma Management

Crisis Intervention: The theoretical foundation for PTM

Defining The Problem: Traumatic stress in the context of work

Role-induced problem

Situation-induced problem

The Solution

Basic Principles of PTM

Introduction

Principles and assumptions

More on practical implications

2. INTRODUCTION TO STRESS

Stress: Causes and Consequences

Sources

Perception

Consequences

Intervening Variables

Summary Definitions of Stress

Some Markers of Stress

Cumulative Stress and Burnout

3. TRAUMATIC STRESS: Definitions and symptomatology

Stress versus traumatic stress

Criteria for acute stressor (Exceptional or CIS)

Traumatic stress: Issues of the head (The reptilian brain)

Stress Symptomatology

Acute Symptoms

Delayed Symptoms

Triggers

Degree of symptomatology

Positive Reactions to Trauma

The Biology of Traumatic Stress

Symptom Education

Hyper-alertness

Constriction

Intrusion
Triggers

Detachment, Dissociation, and Flashbacks

Diagnostic Categories for Stress Disorders

Acute Stress Disorder (ASD)
Post Traumatic Stress Disorder

ASD/PTSD Red Flag Warnings: Some predisposing factors

Warning signs of PTSD: Checklist of some common indicators

Critical Incident Stress Symptom Occurrence: Advice for peers
Phases of CIS Symptom Occurrence

Relationship between personal functioning, degree of stress and symptom type

Factors affecting the severity of reactions to a traumatic event: Checklist

Personality characteristics that can affect trauma impact and recovery

4. POTENTIAL CAUSES AND PSYCHOLOGICAL IMPLICATIONS OF ACUTE STRESS

Potential Causes

General Domain of Potential Causes
General Workplace
Emergency Health Services
Potentially Traumatic Events: General Population

Psychological Implication: The issue of the heart

Introduction
The Issues of Vulnerability
Healing the Brain and the Heart
Underlying Issues: Debriefers' Notes

5. PROACTIVE TRAUMA INTERVENTIONS: Objectives and Strategies

Introduction

Psychological Needs Post-trauma: General public versus Professional Role

Trauma Interventions: A summary

Defusings
Large Group Defusing (Demobilizations)
Debriefings
Active Presence - (Reactive Hanging Out.)
Other Interventions

Summary of Objectives and Intervention Options

Contact/Social Support
Venting and Emotional Processing – Talking it out
Stress Reactions Require Normalization
Underlying Issues Need To Be Addressed
Education and Direction
Grieving if there is a Personal Loss

Individual or group focus

Advantages of Group Debriefings
Problems with Group Debriefings.

Proactive Trauma Interventions and its relationship to the Mitchell Model.

6. INCIDENT ASSESSMENT AND PLANNING

Who is the client?

Who has been affected directly and indirectly?

What is the degree of impact?

What are the natural healing rituals?

Checklists

Trauma in the Workplace: Administrator's Checklist

Trauma Intervenor's Checklist

Potential impact of a traumatic event on a work site and the role of Proactive Trauma Management: Example and worksheet.

Impact and approach

Case Example.

7. INTERVENTIONS: Peer-Based

Introduction

Working Definitions and Roles

a. Definitions

b. Role.

Interventions

Individual Defusing: On-the-Job

The Psychological Individual Peer Intervention (Defusing)

Individual Defusing: Do's and Don'ts

Walk and talk - do's and don'ts. Here is some basic advice to those new to the peer-support role.

Self-Assessment: Readiness to work in the peer-support field

Psychological Educational Defusing Summary

Psychological-educational defusing checklist

Defusing Contracting Example

Peer Intervention: Hot, Warm, and Cool

Conducting an Effective Story Stage

Peer Defusing Guide and Observer Sheet

Potential Issues in Individual Defusings

Making a Referral: Advice for Peers

Ethical Considerations for Peers

Group Defusing Guidelines

Group Defusing Format

The Key to Defusing

8. INTERVENTION: The Large Group Defusing (Demobilization)

Emergency Services Focus

Non-Emergency Service Worker Focus

9. INTERVENTION: Psychological-Educational Group Debriefing (PED)

Introduction

Procedure

1. Pre-Debriefing
2. The Debriefing

The Psychological–Educational Debriefing: The emotional walk

3. Post-Meeting Activities
- A word on informality

Processing Levels for Debriefing

CIS Defusing and Debriefing Guidelines

Three key guidelines

CIS Defusing and Debriefing: Other guidelines to consider

Operational versus Psychological Debriefing

Critical Incident Stress Debriefing: Objectives

Contracting Stage: Introducing a PED

- Formal Contracting
- Informal Contracting

Affirm and Reframe Intervention: Cognitive-Behavioural Issues

- Introduction
- The Process
- Examples
- Affirm and Reframe Language: Do's and Don'ts
- Affirming and Reframing: Practice

Trauma in the Workplace: Alterations to the standard debriefing based on type of incident

Group Debriefing: General considerations

Issues in a Group Debriefing

The PED Guide: Level 4 perspective

Group Stages and Issues in a Level 4 PED

Debriefing Versus Psychotherapy

Potential Problems When Facilitating Debriefings

10. NOVADEBRIEFING/DEFUSING MODEL

Purpose

Timing

Logistics

Debriefing team roles

Ground rules

Session Procedure

- A. Session Process
- B. Special Issues
- C. Concluding a Debriefing

Comments

Potential roles for the Trauma Intervenor

Problems with PTM Programs: A clinician's observations

Dealing with Cumulative Stress: The Vent Group

- a. The Structure
- b. The Process

11. PROACTIVE TRAUMA MANAGEMENT: Program Development Management Checklist.

Trauma in the Workplace: Sample procedures

Guide to Selecting Peer Support Personnel
Peer Selection Process

12. POST-SCRIPT

13. BIBLIOGRAPHY

14. TRAUMA-RELATED ORGANIZATIONS

15. ABOUT THE AUTHOR
